

## SSM Official Repair Center India – Terms & Conditions

### Service conditions

At SSM Official Repair Center in India, SSM-trained experts provide high-quality repairs using in-house designed electronic test equipment. As a result, the following benefits can be expected for each board handled:

- Visual check for mechanical defects
- Electronically tested according to SSM repair standards by trained engineers
- Defective components replaced
- Modifications, life-enhancing improvements and preventative repairs done
- Software update
- Dusted and cleaned
- Documentation of repairs in the form of a repair summary per unit

### Repair warranty

- 3 months warranty on repaired sections
- 40% discount on new PCB, if non-repairable and not tempered by third party before
