

General Presentation 2024

SSM Schärer Schweiler Mettler AG

Operations / February 2024

Agenda

General Presentation Operations 2024

- 01** SSM as Part of Rieter Group

- 02** Background of SSM and Experience

- 03** SSM Schärer Schweiter Mettler AG, Switzerland

- 04** SSM Operations

- 05** Strongest Global Service & Support Presence

- 06** Contact Details

01

SSM as Part of Rieter Group

Rieter Group – Premium Textile Components

SSM Textile Machinery is a subsidiary of the Rieter Group

Rieter is the world's leading supplier of systems for short-staple fiber spinning. Based in Winterthur (Switzerland), the company develops and manufactures machinery, systems and components used to convert natural and man-made fibers and their blends into yarns.

SSM AG is within the business unit RCO which represent on the market through five top brands. Beside of SSM AG the companies Bräcker, Graf, Novibra and Suessen are the specialists for key components of all spinning technologies as well as of products for the nonwovens industry.

The internationally recognized technological know-how, the high-precision manufacturing and the excellent advisory services characterize these world-leading brands.

Rieter Group – Premium Textile Components

02

Background of SSM and Experience

SSM: Make the Difference Since 1855

Opening of subsidiary in China

Introduction of XENO platform

2015

2017

Rieter acquired SSM AG

2019

preciforce back pressure system

2021

Not only a look back, but also the outlook for the future demonstrates that SSM is the leader in yarn processing & winding

2022

SSM presents a whole series of innovations – 2003: *digitens, fastflex, fancyflex, lubetex*

2004: *joy* / 2007: *tensiso* / 2008: *linearo* / 2013: *x-view* / 2015: *DIGICONE 2* / 2019: *powerblade*

Starting with Jean Schweiler & Heinrich Schrader who build one of the first mechanical pirn winders

1855

Invention of horizontal spindle replacement

1906

DIGICONE step precision winding

1984

1989

Foundation of SSM AG

1995

preciflex yarn laying system

1999

Acquisition of German companies

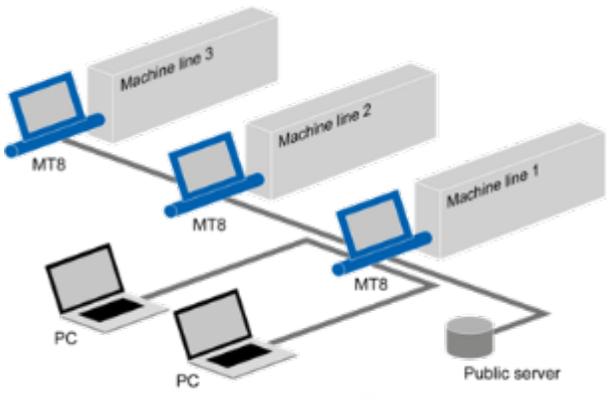

1999

A Long History in the Textile Business

From the beginning in the mid 19th century...

...to the future

***fastflex*TM – Electronic Yarn Traverse System**

SSM, inventor and patent holder of the first electronic yarn traverse system

Successfully introduced as *preciflex*TM in 1995, during the ITMA in Milan, since then, the performance of the electronic traverse system has been improved and the speed performance enhanced (*fastflex*TM)

High flexibility to produce made-to-measure cross-wound packages

Change of traverse length, the spool size as well as the crossing ratio without big efforts

Up to 950 double strokes/minute (10"- traverse)

Over 200'000 spindles have been equipped with the original electronic yarn traverse system of SSM since the introduction in 1995
