## **New location and production facilities for SSM Switzerland - from July 1st, 2020**

**SSM Schärer Schweiter Mettler is delighted to announce the relocation of their Swiss factory plant from Horgen to Wädenswil. Thanks to the relocation into their newly built production facilities, SSM will strengthen their position as the world's leading supplier of precision winding and yarn processing machines.**

Fulfilling SSM mission to offer their customers an exceptional service experience, SSM is moving their factory to a brand-new building equipped with a top modern assembly line, product development and new showroom that stands as a technology center for product presentations and customer-specific trials. For SSM, uncompromising quality within the components, assemblies and final machines, has top priority. The in-house production allows SSM to monitor the entire production chain, to ensure that we meet and excel customers' expectations.

Thanks to our commitment to technological innovation, focused on cooperation with best partners in the field and with industry leaders, SSM is recognized as innovative leader in yarn processing and winding.

**SSM is looking forward to welcoming you in [Wädenswil](#), starting from July 1st, 2020**
